Department of Integrative Biology, University of South Florida

From the USF Post-tenure review regulation: *Post-tenure review is required of all tenured faculty members at the University of South Florida in accordance with State law. The purpose of this review is to ensure continued high standards of quality and sustained productivity among tenured faculty consistent with the mission of the university and with assigned duties in research, teaching, and service. In addition, post-tenure review is intended to recognize and honor exceptional achievement. As a formative assessment process, post-tenure review is also intended to provide continued academic professional development, enable a faculty member who has fallen below performance norms to pursue a performance improvement plan and return to expected levels of productivity, and, when necessary, identify patterns of performance that are unacceptable or inconsistent with professional standards or employment in the Florida State University System (SUS).*

Post-tenure review outcomes will reflect faculty members' assignments. Post-tenure review assessments are holistic; therefore, evaluation covers each area of assignment including all aspects of faculty workload in research, teaching, and service. Each area is scored on a four-point scale: 1 = exceeds expectations; 2 = meets expectations; 3 = does not meet expectations; 4 = unsatisfactory. The final overall rating, on the same four-point scale, is an average of the ratings in each area (research, teaching, service), weighted by the percentage assignment in each area.

The department chair will evaluate the review packet and faculty member's disciplinary file (if applicable) covering the past five years and provide a written assessment (not to exceed 12,000 characters) of the level of achievement. If applicable, the chair will include in the assessment letter any concerns regarding professional conduct, academic responsibilities, and performance during the period under review. The chair shall also assign an overall performance rating using the four-point scale as defined in the USF post-tenure review regulation as follows:

Exceeds expectations (rating = 1): *a clear and significant level of accomplishment beyond the average performance of faculty across the faculty*
Performance is appreciably greater than the average college faculty member of the candidate's present rank and field at top-tier research institutions. Must have a sustained and satisfactory professional conduct and performance of academic responsibilities and policies.

Meets expectations (rating = 2): *expected level of accomplishment compared to faculty*

38 *conduct and performance of academic responsibilities and compliance with state law, Board*

40 ***Does not meet expectations (rating = 3):*** *performance falls below the expected range of*
